A Halifax County Colored Baptist Association Fass Strong Resolutions-They Will Help Punish Offenders,

The negroes who compose the memberthip of the Bannister Baptist Association last Friday evening put themselves on tecord as being in hearty sympathy with a movement which if properly supported will result in untold good in maintaining the dignify of the law in the South.

At the meeting of the Association held at Houston, Va., on the date named resplutions were unanimously adopted which, It is believed will have a strong influence in shaping the sentiment of the negroes upon ene of the greatest problems the South has now to deal with. This action of the Association is but the beginning of what promises to be a united action on the part of the self-respecting and law-ablding negroes in this State to co-operate with the whites in stamping out the in-famous crime of assault upon defenseless

THE RESOLUTIONS.

THE RESOLUTIONS.

The Association by a unanimous yete requested that the resolution passed be published in the Richmond morning papers and in several papers published by members of their race.

The resolutions are as follows:

We, the members of the Hamister Haptist Association assembled in its 28th annual season at Houston, Hallfax county, Va., having noticed with regret the great number of arrests of mea in our race in various parts of the Southland for the most dastardir, cowardly and infamous crime known to society, namely, outrageous assault upon defenseless women; and whereas, This infamy has, according to daily reports, increased in an alarming degree and threatens to create and perpetuate the greatest allenation of and perpetuate the greatest alienation of the whites and blacks, and it is also de-stined, if not stamped out by the good and law-abiding citizons of both races, to cause the inoffensive and law-abiding

In this connection, and for the purpose of making this connection clear. I beg to quote from his views, as expressed in leaser of recent state:

"So many difficulties have arisen in other States from changes in the officers of the State institutions from which all has been received, that the Chief has adopted the policy of maintaining these sections independently, wherever it is possible to do so. By this action the chief is simply carrying out his policy and is not prompted by any wish to sever his relations with the Virginia State Board of Agriculture, which has been so uniformly pleasant and satisfactory. You will, therefore, please explain this matter to the officials of the State Board and convey to them the thanks of the chief for their confluid co-operation in the past, and assure them that he will maintain the high character which the publications of the Virginia section have attained."

From this it will be seen that conditions in other States have been of such a character as to make advisable some general and permanent plan for the con-

general counsel for Virginia and General Meaner, the President of the Virginia hranch of the company are in the city and will appear before the Council.

It seems to be the general impression that the Council will not grant the Long-listance Company any local franchise whatever, but will allow it to do a long-distance business here if it so desires.

A TALK WITH MRS. PINKHAM

About the Cause of Anemia.

Everybody comes into this world with a predisposition to disense of some particular tissue; in other words, everybody has a weak spot. In ninety-nine cases out of a hundred the weak spot in women is somewhere in the uterine system. The uterine organs have less en-

sistance to disease than the vital organs; that's why they give out the soonest. Not more than one woman in a hundredmy, in five hundred-has perfectly healthy organs of generation. This points

o the stern necessity of helping one's self just as soon as the life powers sec.a. to be on the wane. Excessive menstruction is a sign of physical weakness and want of tone

n the uterine organs. It saps the strength away and produces anemia (blood If you become anemic, there is no knowing what will happen. If your gums and the inside of your lips and inside your eyelids look pale in color, you are

I was troubled with excessive menstruation, which caused womb trouble, and I was obliged to remain in bed for six weeks. Mrs. Pinkham's medicine was recommended to me, and, after using it a short time, was troubled no more with flooding. I also had severe

pain in my kidneys. This, also, I have no more. I shall always recommend the Compound, for it has cured me, and it will cure others. I would like to have you publish this letter." (In such cases the dry form of Compound should be used.)
